Cars-by-Numbers Series

COUNTING CARS IS FUN!

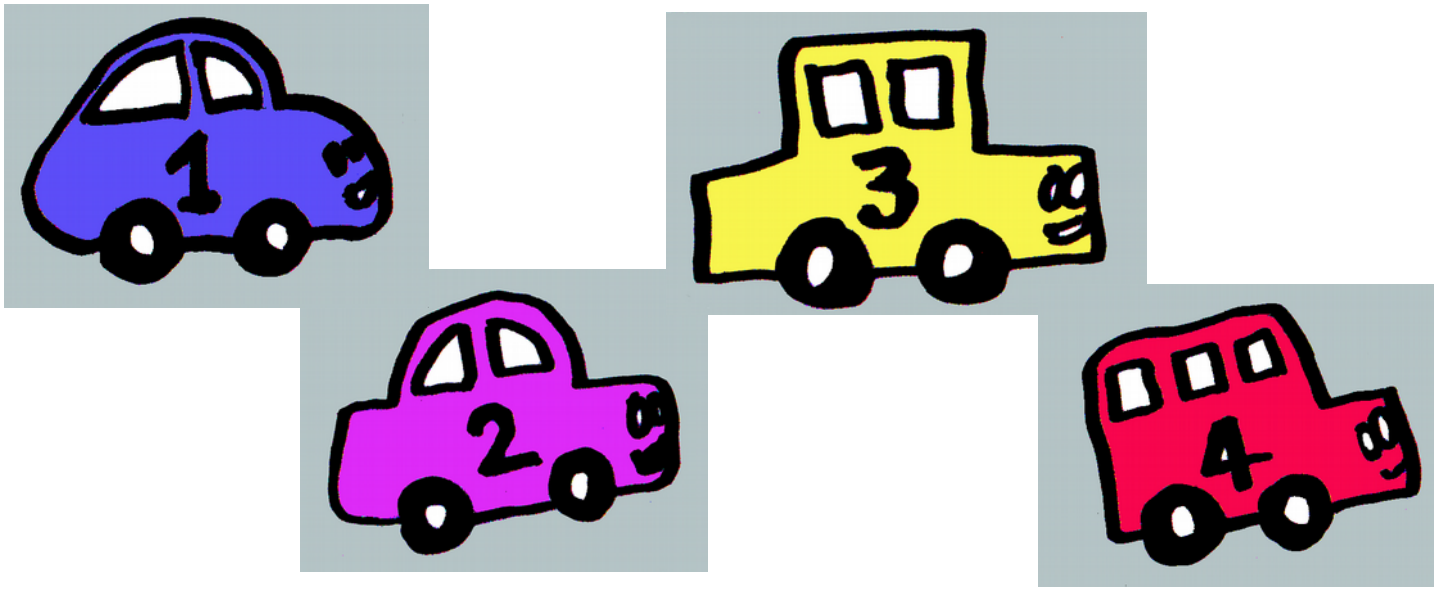
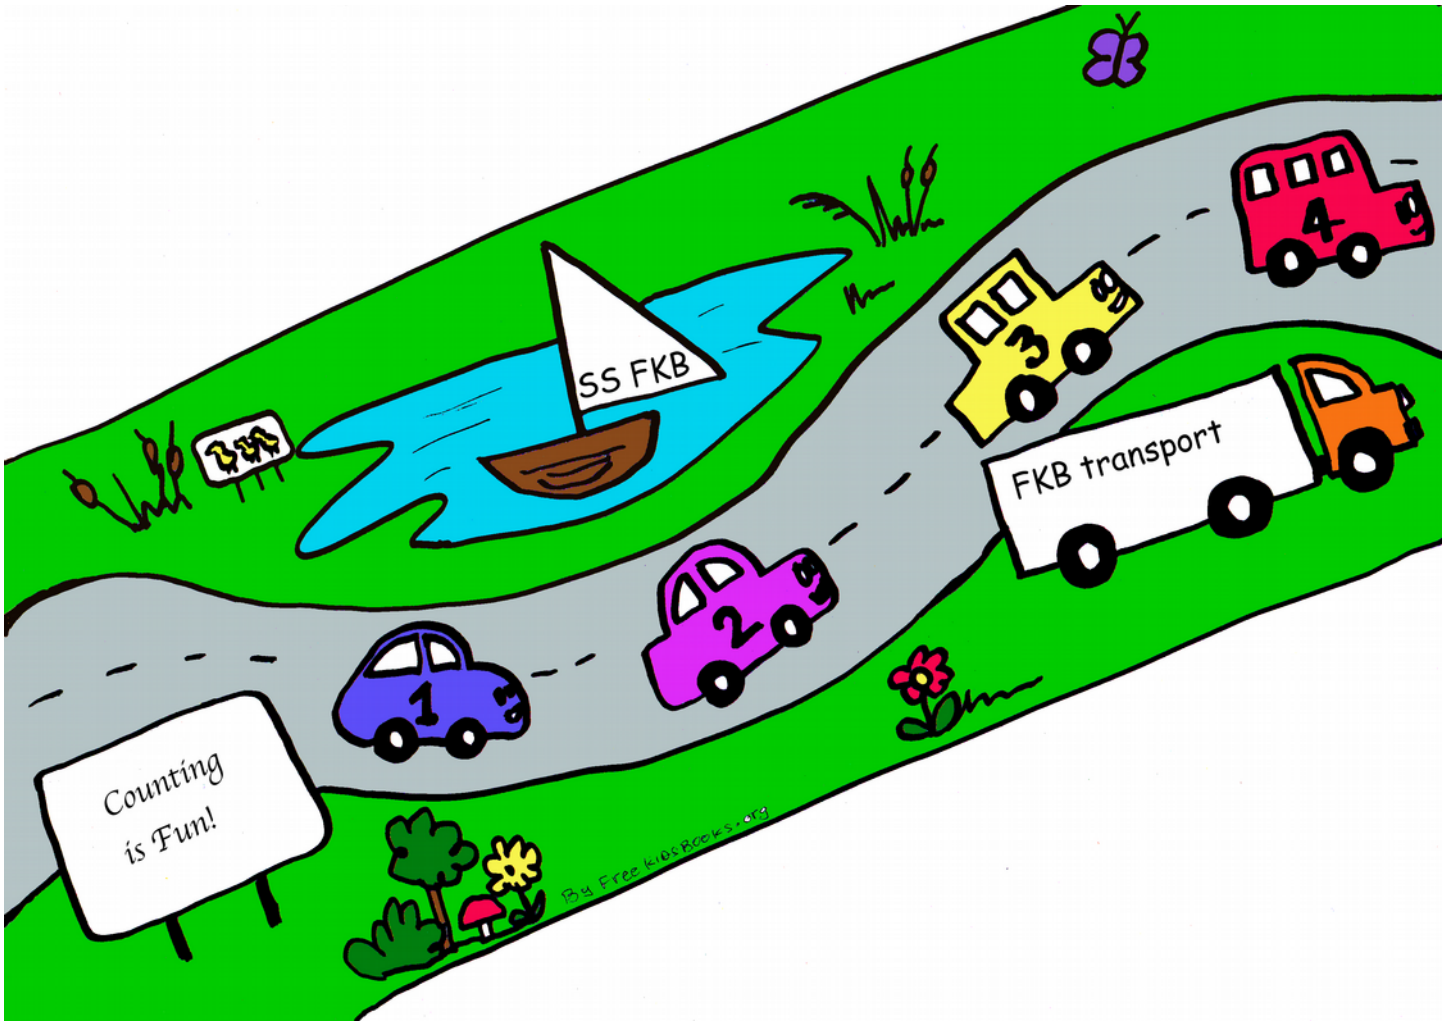
This book belongs to:

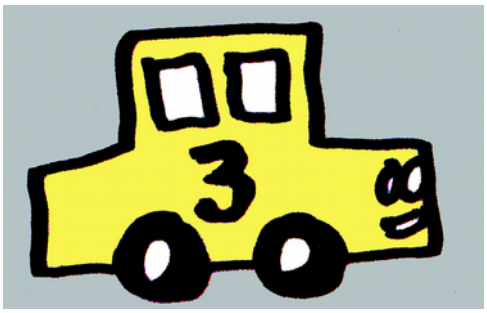
_____

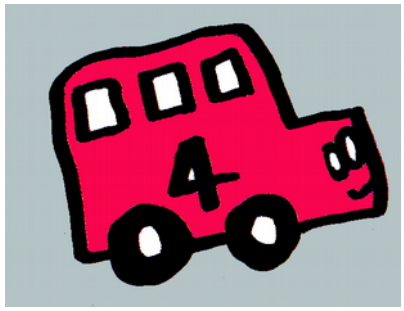


What can you see,
driving on the road
carefully;

Can you
count with me?





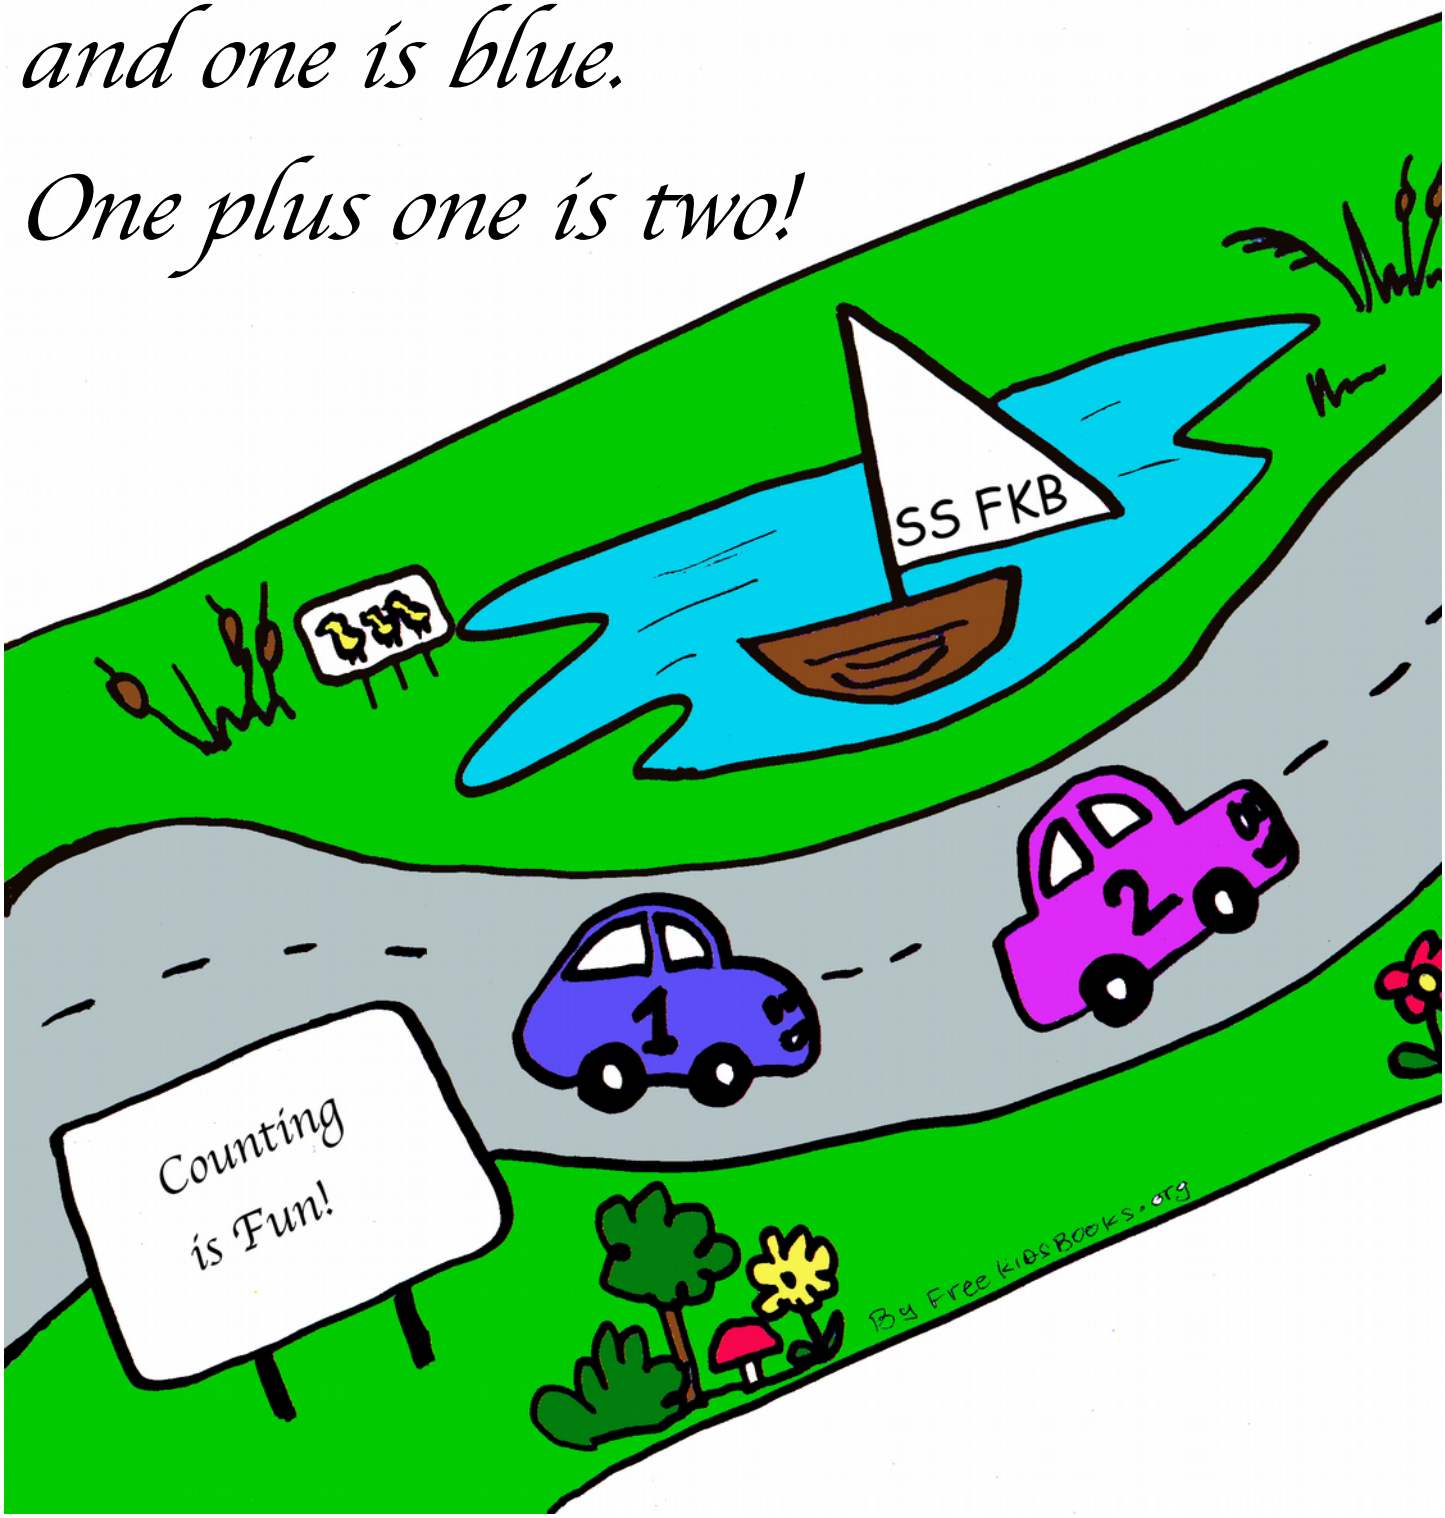


One, two, three, four!

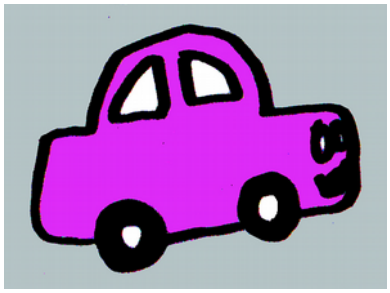
One blue car
driving on the road
carefully.

ONE CAR!

Two cars,
driving on the road
carefully.
One is pink,
and one is blue.
One plus one is two!



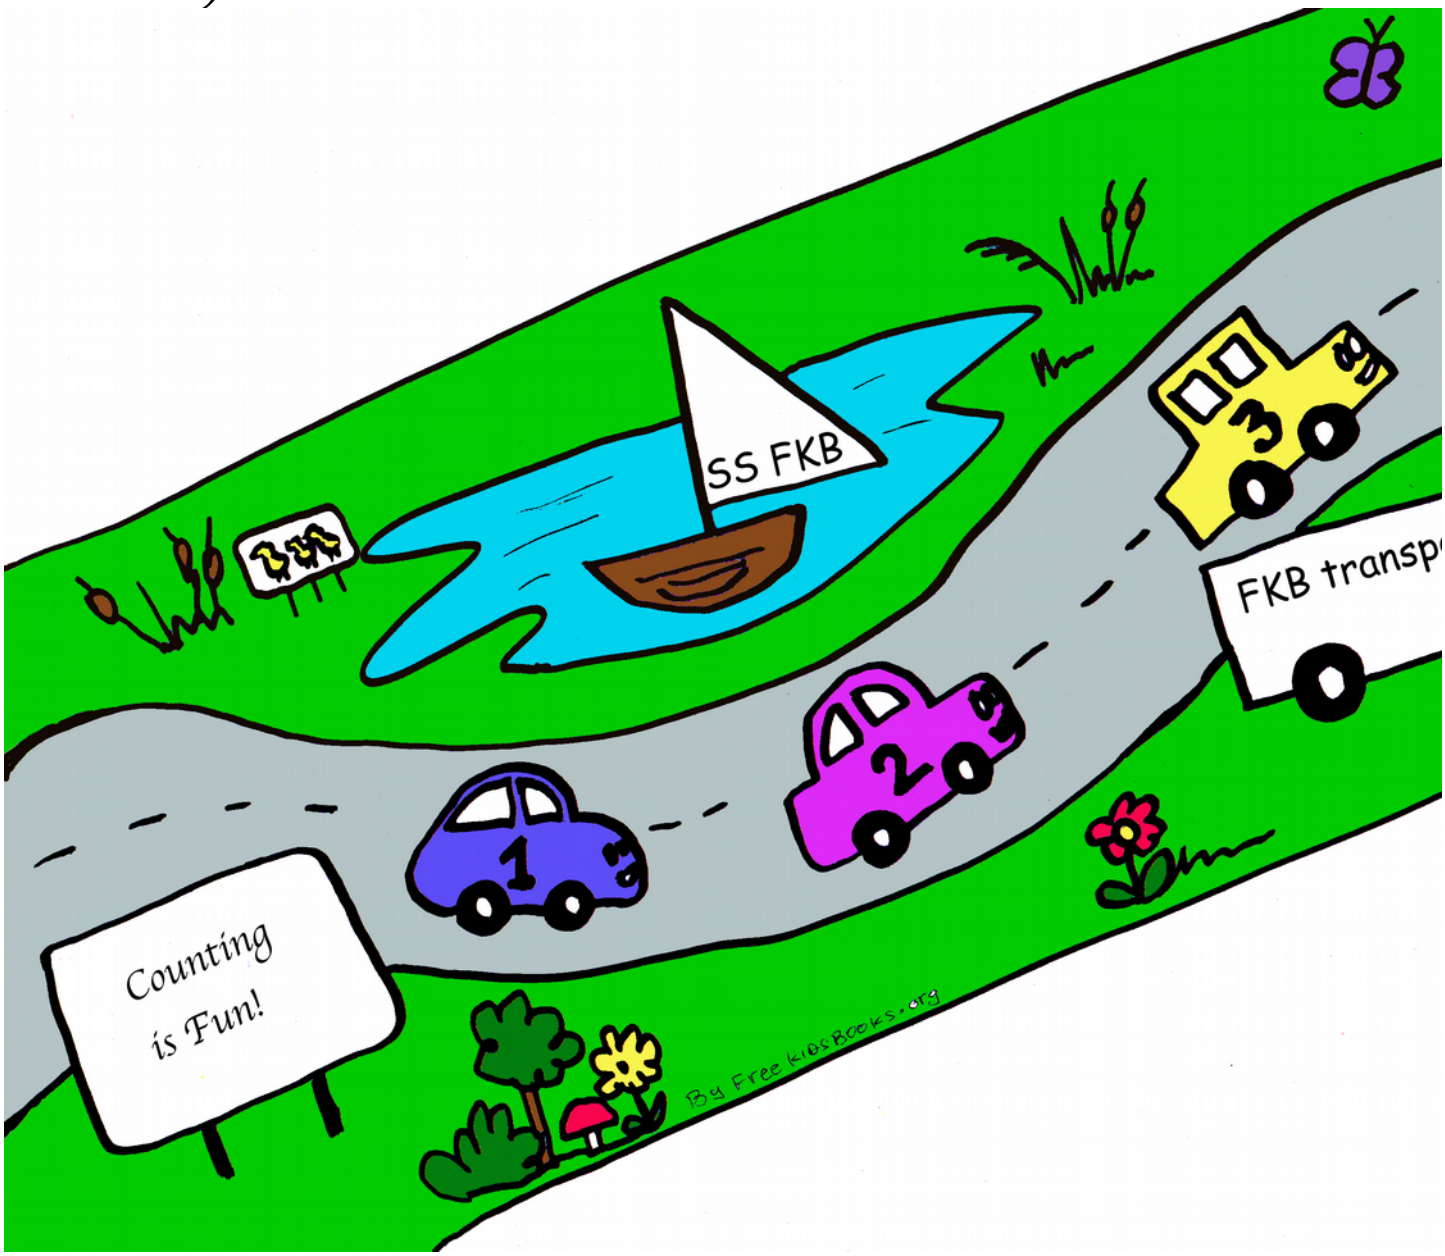
+

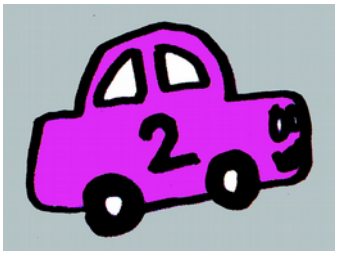


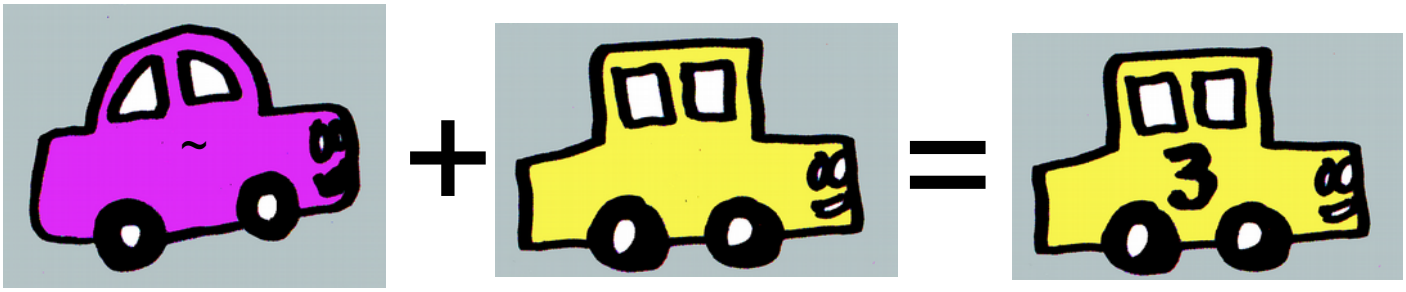
=

1 + 1 = 2

Three cars,
driving on the road
carefully.
One is pink, one is blue,
and one is yellow.
Two plus one is three!

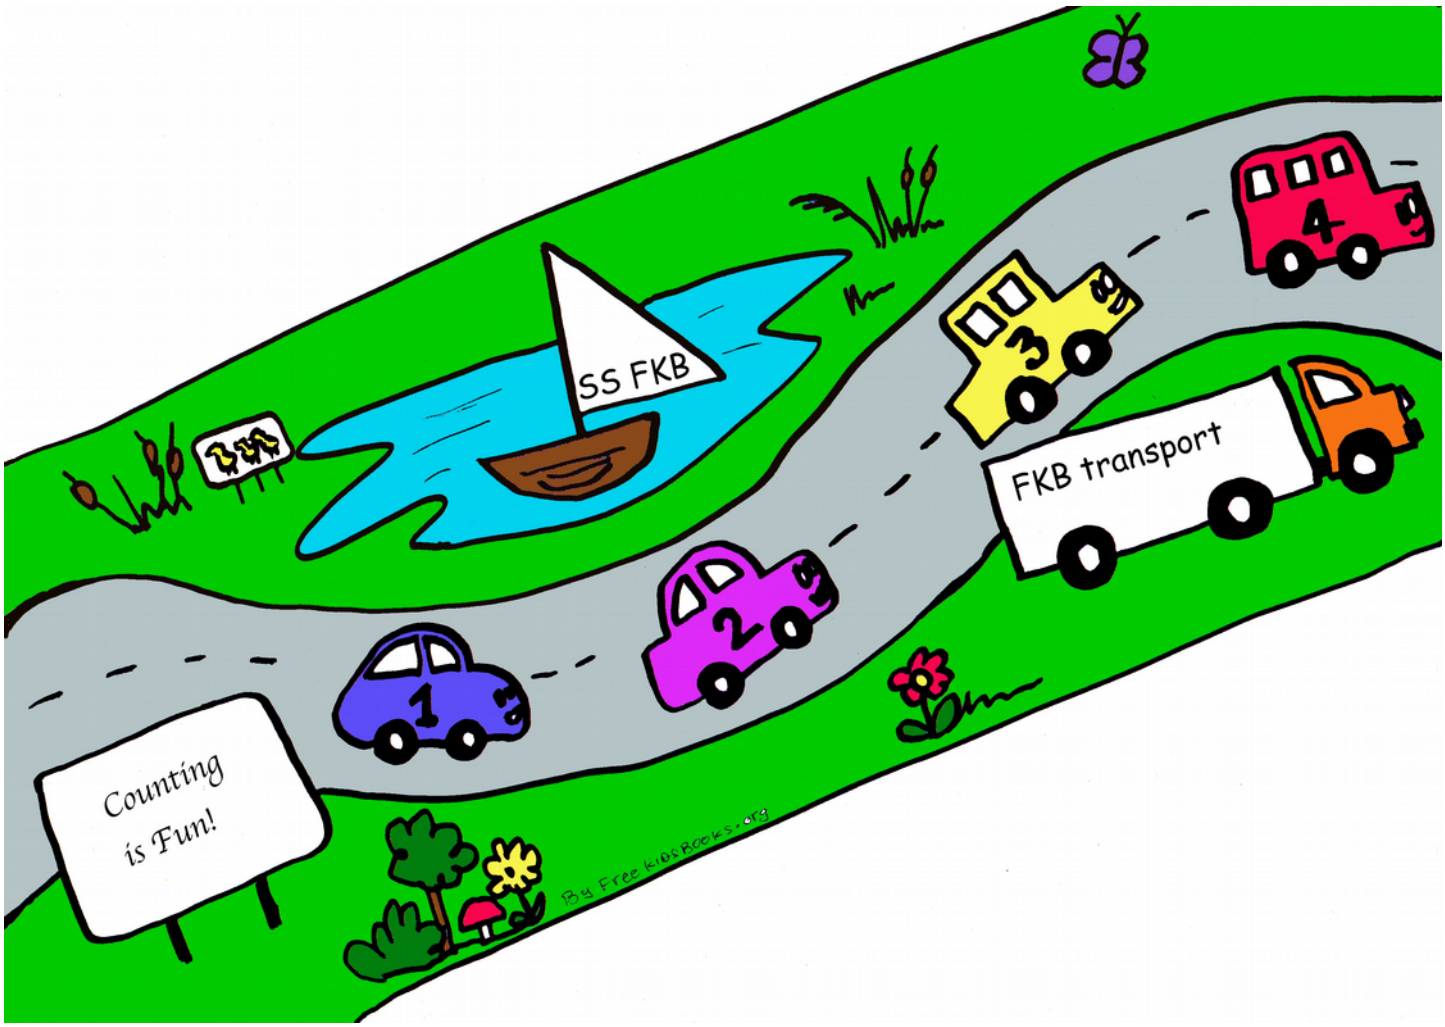


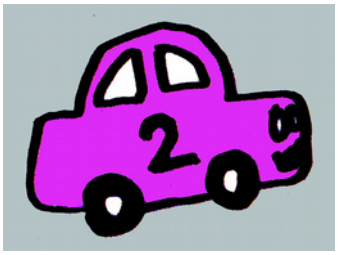


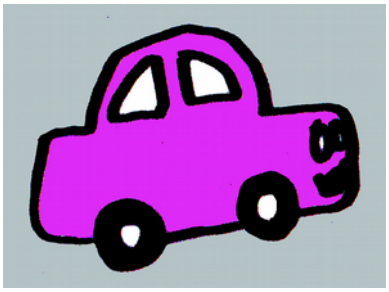


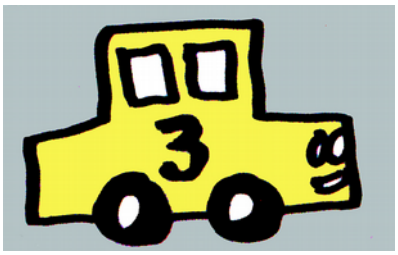
2 + 1 = 3

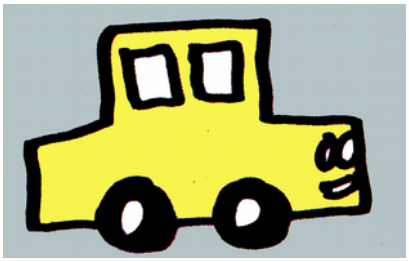
Four cars,
driving on the road
carefully.
One is pink, one is blue,
one is yellow , and one is
red.
Three plus one is four!



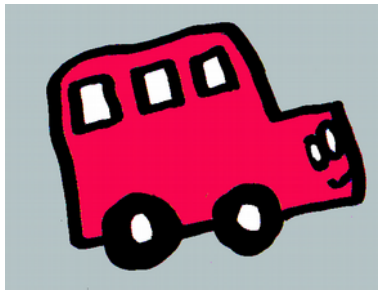




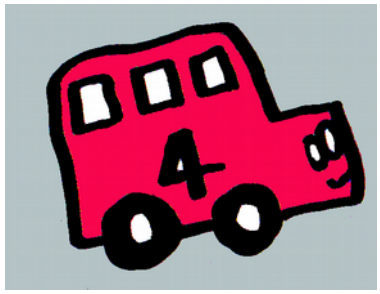




+

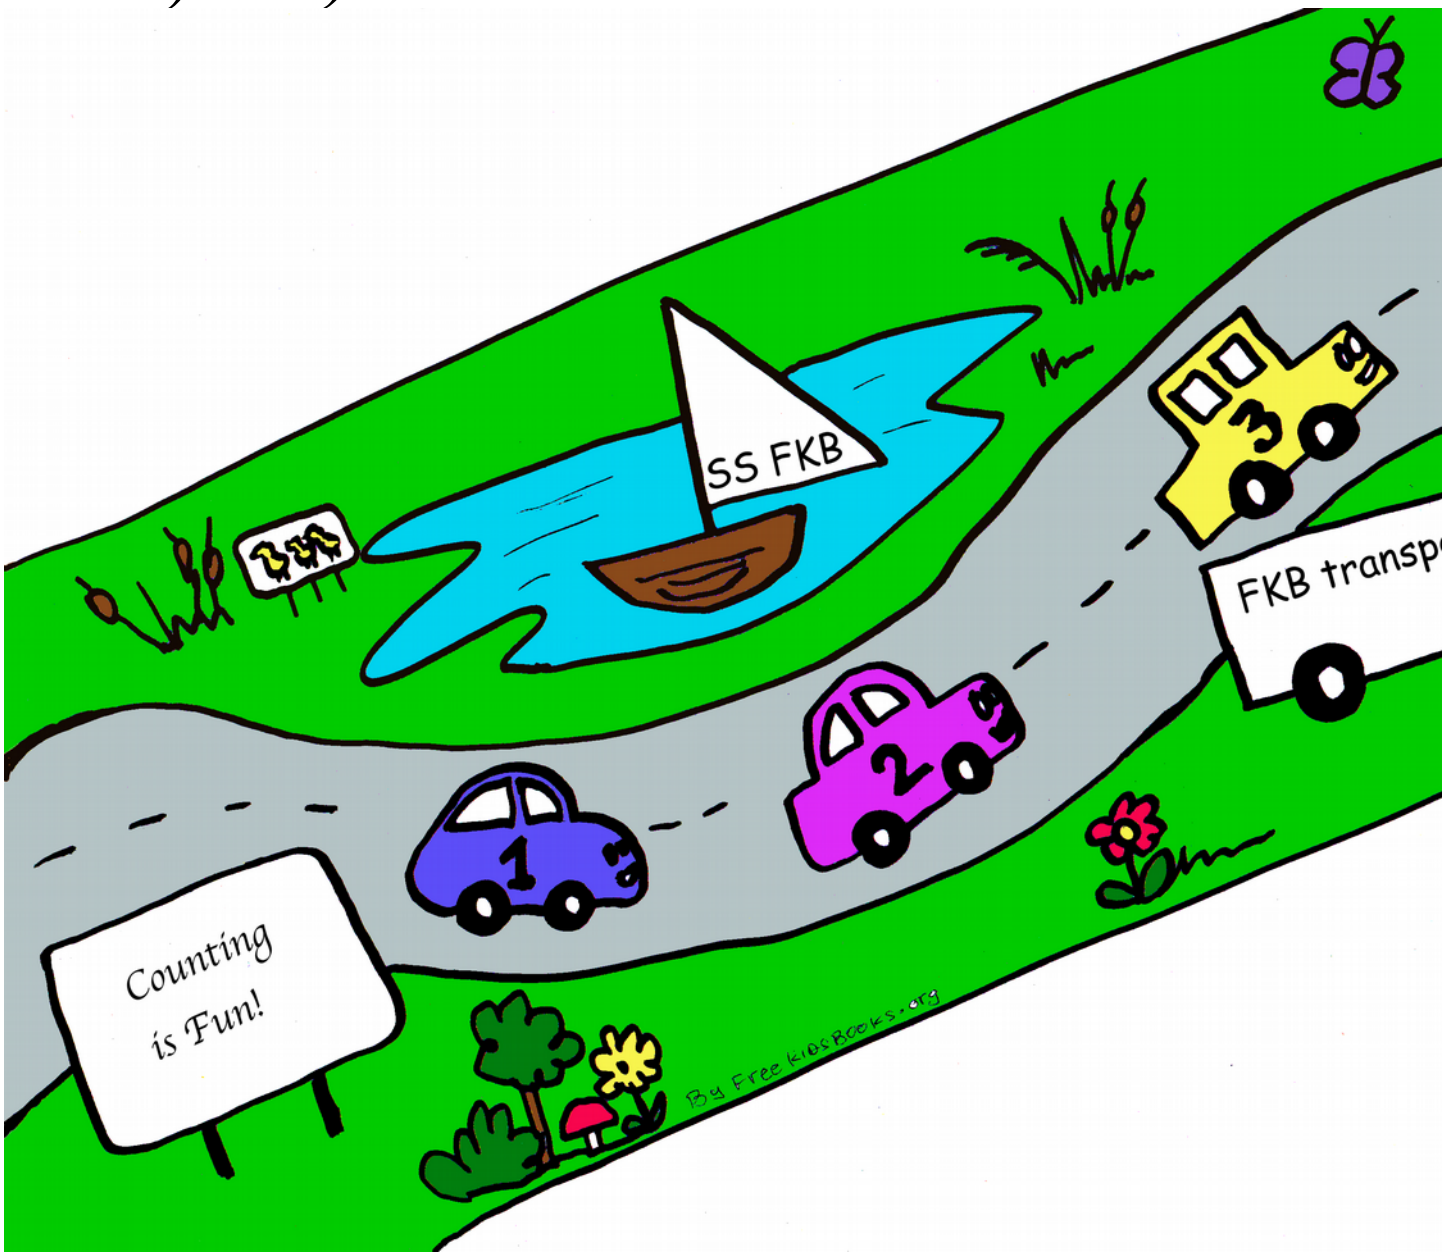


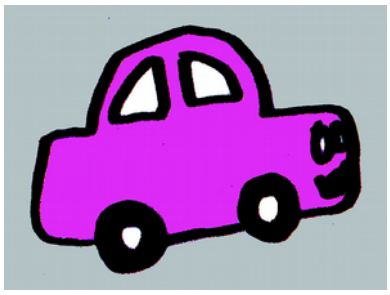
=

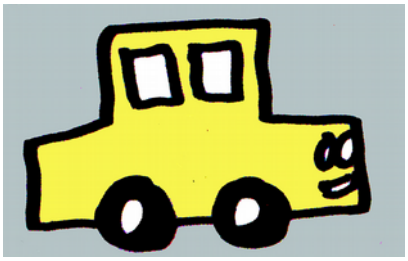


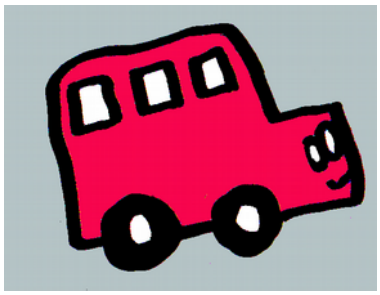
3 + 1 = 4

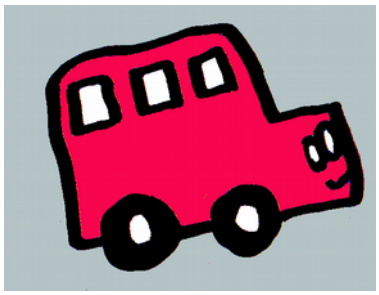
One car stops at the petrol station
– how many cars are there now,
can you count with me?
Three cars,
driving on the road
carefully.

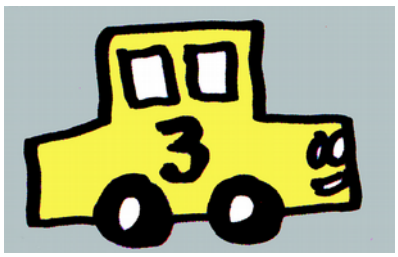






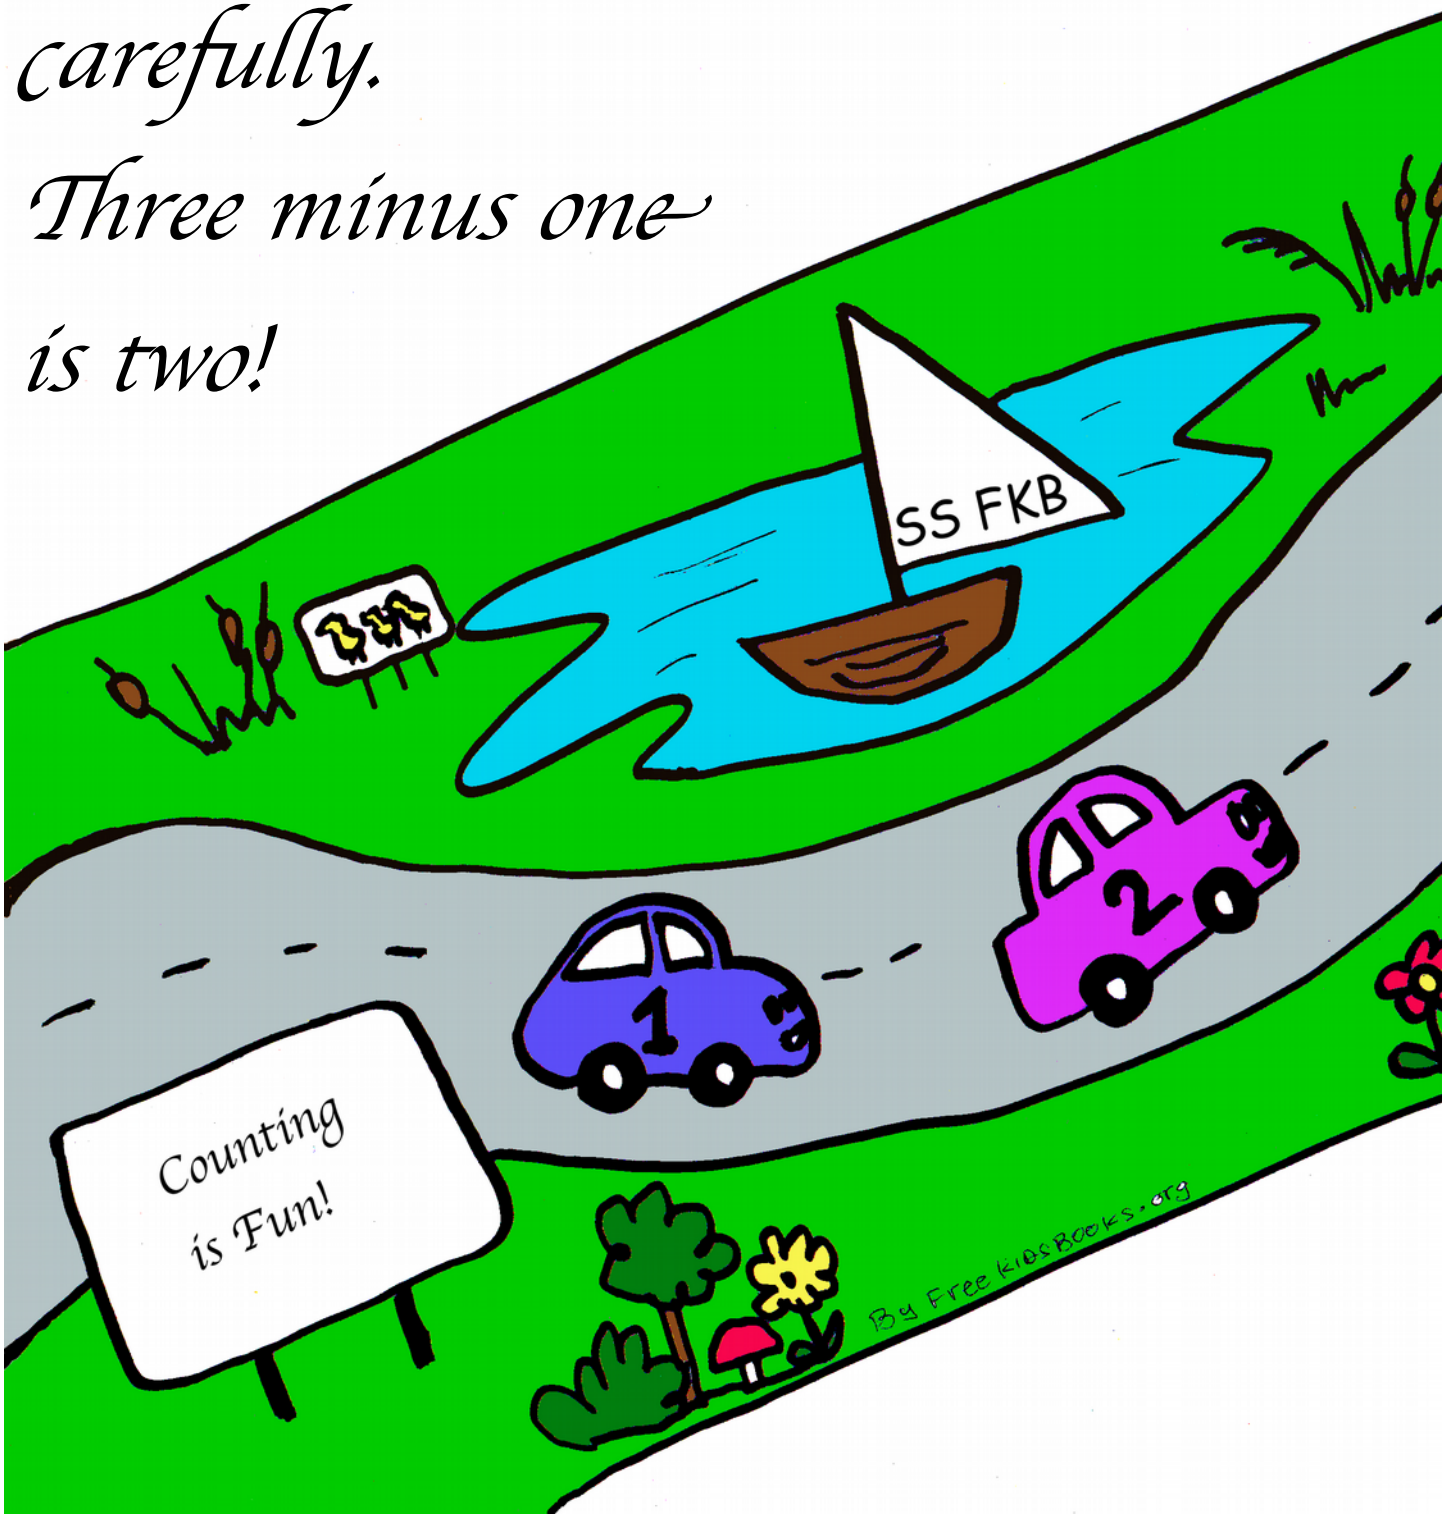


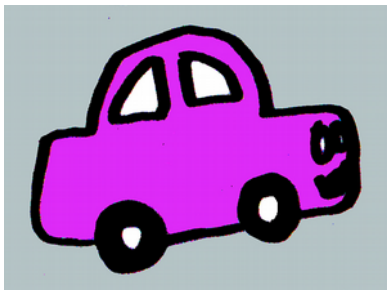


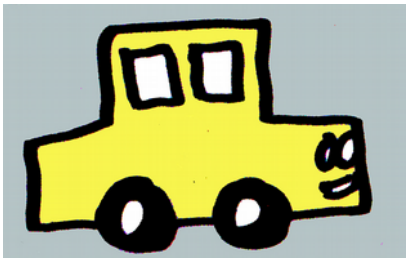


4 - 1 = 3

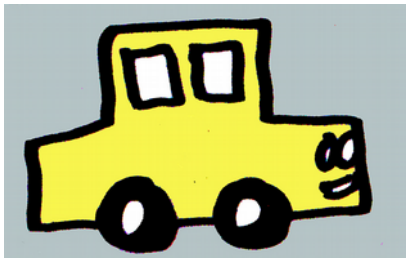
Another car stops at the petrol station – how many cars are there now, can you count with me? Two cars, driving on the road carefully. Three minus one is two!



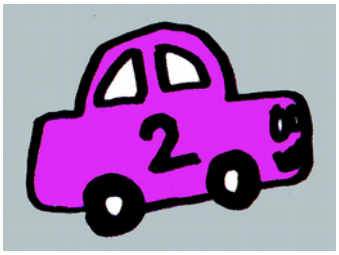




-



=

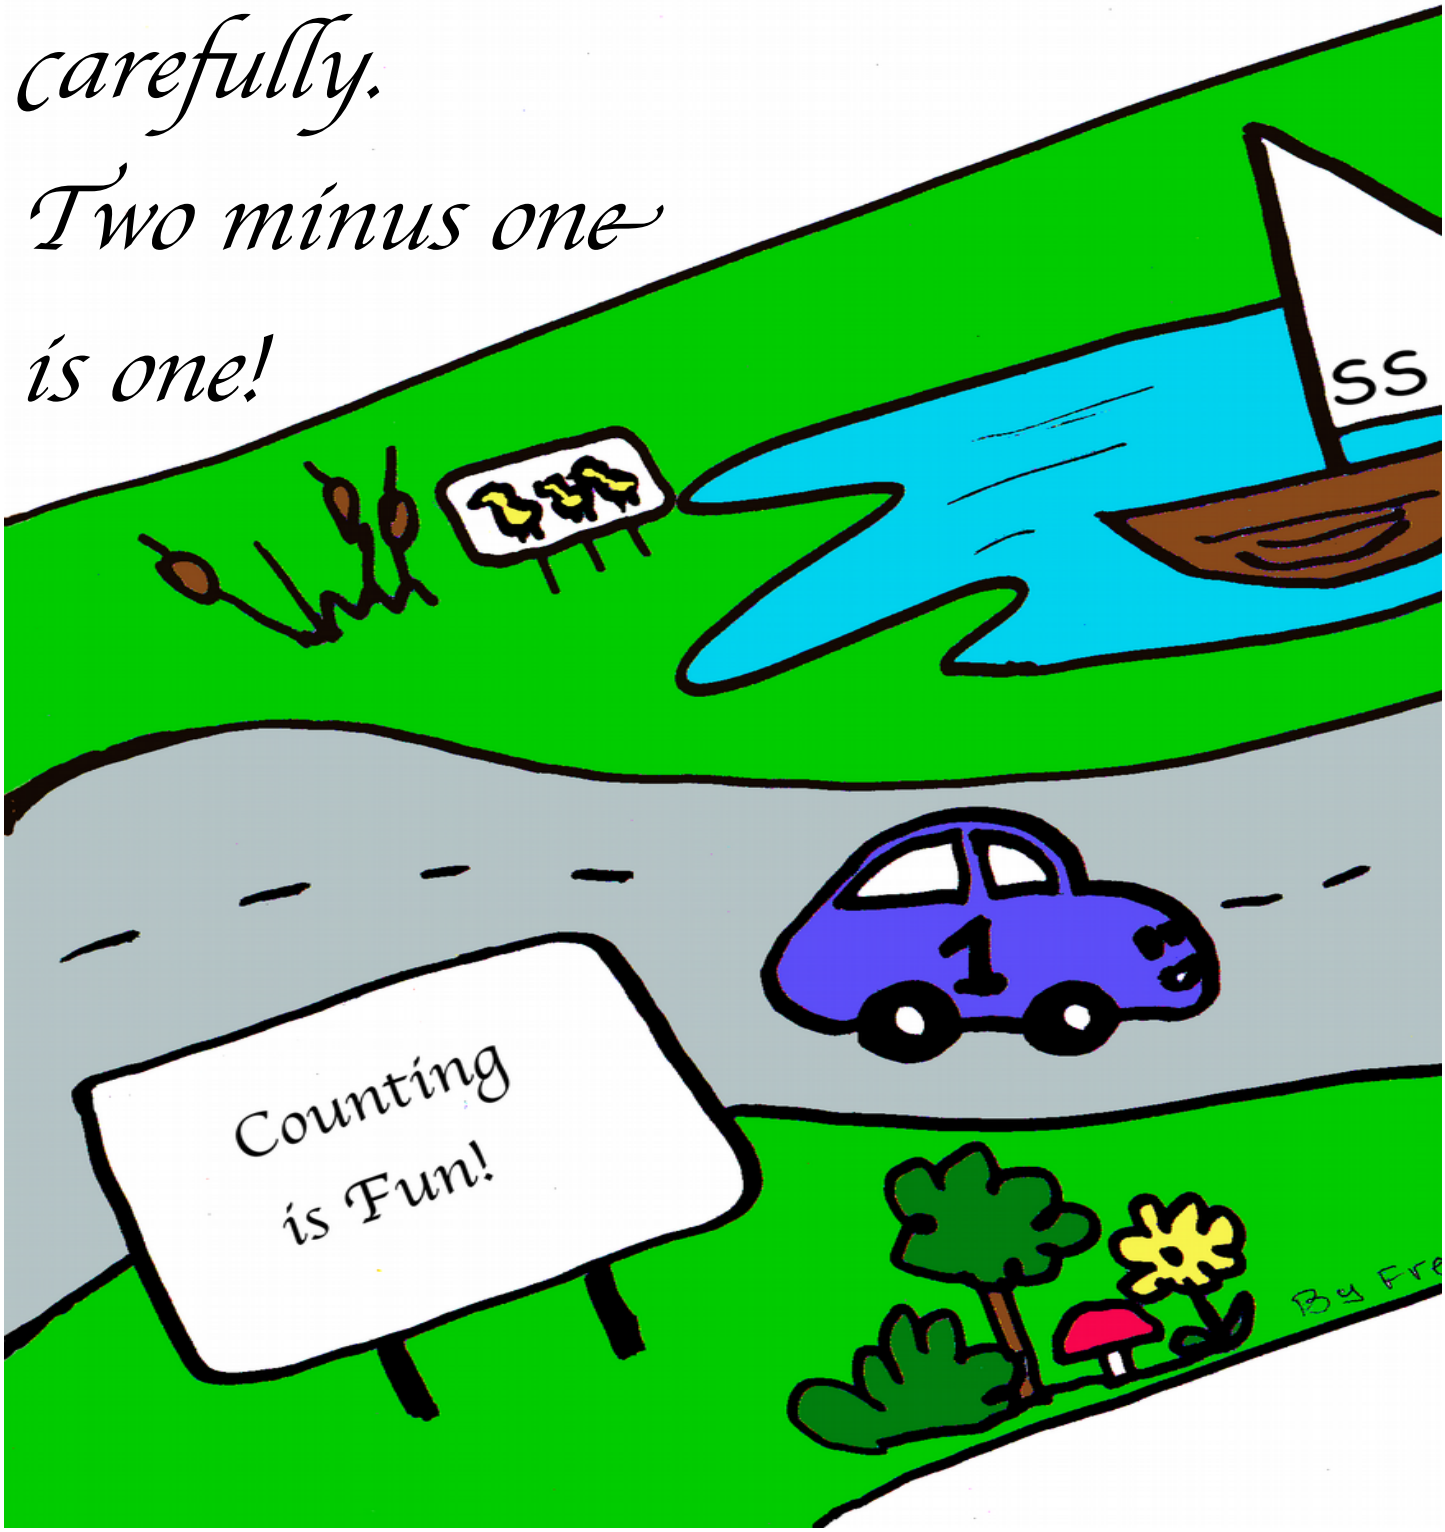


3 - 1 = 2

Another car stops at the petrol station – how many cars are there now, can you count with me?

One car, driving on the road carefully.

Two minus one is one!



2 - 1 = 1

Another car stops at the petrol station – how many cars are there now, can you count with me?

Now there are no cars driving on the road!

One minus one

is zero!

1 - 1 = 0

All the cars are gone,
and now we must also
finish our story,
And say
Goodbye!

THE END
